PRODUCT-DETAILS

EI 691 6

Master station

General Information

Extended Product Type	EI 691 6
Product ID	16096916
EAN	7400000003637
Catalog Description	Master station
Long Description	Master station as a desk unit with integrated operating elements like presence buttons, call button, doctor call button, high resolution TFT screen and a touchscreen interface. Serves as a convenient communication unit including speech function and offers various functional features for use in the service room or at central work stations. Well-structured menu with icons for easy operation. Equipped with 5.7" TFT color display with background illumination: If presence is set, system messages can be seen and heard, organized by priority as set in the system (e.g. calls, malfunctions or presences). The function keys on the touch screen display can be used to switch to other messages. Communication (incoming and outgoing) in the hands-free mode via integrated speaker and microphone or using the telephone handset, in high audio quality due to digital transmission technology. The audio parameters are optimally adaptable to the respective environment. The volume can be adjusted even during a call. Simple call setup using the touch screen display: It is possible to activate calls, presences and participants in the master station address book. Secured connection prevents monitoring of participants, provided that no call has been made. Staff can make announcements to predefined locations over the master station. Option to display and select/deselect services (interconnections) using the respective function keys, e.g. for forwarding system messages to neighbouring wards or to functional areas. Support of call enhancing function from rooms (beds) using the master station address book in order to be able to initiate a patient call with higher priority in selective zones of the ward or in an intensive care unit. Storage of all configuration data in the superordinate service room interface. Start-up is supported by a local service menu and extended remote access functions. Data connection to the service room interface via the databus connection unit. Upgradeable to future system firmware due to trendsetting Flash technology.

Technical

Function	Button function: Activate/quit call
Power Supply Type	External
Model Number	Master station
Material	Material quality: Thermoplastic Material: Plastic
Color	White
Application Function	Hospitality

Material Compliance

RoHS Status	No declaration needed
REACH Information	No data - If REACH inform is not yet available for a certain product
Conflict Minerals Reporting Template (CMRT)	9AKK108468A3363

Dimensions

Product Net Width	345 mm
Product Net Height	70 mm
Product Net Depth / Length	60 mm
Product Net Weight	0.200 kg

Ordering

Package Level 1 Units	box 1 piece
Package Level 1 Gross Weight	0.300 kg

Certificates and Declarations

Declaration of Conformity - CE	No declaration needed

Installation

Instructions and Manuals	No document needed
