

On-Site Training

Service product description

Professional training enhances employee competence and motivation, improves site safety and productivity, and reduces downtime. ABB provides on-site training for your personnel.

Value to customer

- Tailored training according to your needs at your site
- Focus on your key problem areas
- Savings on travel expenses

Service includes

- Highly experienced, ABB-certified trainer on your site
- Possibility to practice using drives in optimally sized groups
- Training focuses on the areas you have chosen and uses your equipment as much as possible
- Training utilizing devices on-site (demo units can be provided by ABB for an additional charge)
- Certificate of course completion

Service does not include

- Maintenance, repair work or any other normal, operational tasks not carried out as part of training

Product coverage

- Consult your local ABB Training Center

Customer responsibilities

- Nominating a contact person responsible for communication between ABB and the site where the training will be carried out
- Arranging access to the training site as well as supplying the drives to be used in the training

Other terms

- According to the agreement between ABB and the customer
