

ABB EXCITATION SERVICE CAMPAIGN – AUGUST 2024

You say Spare*, we say Care!

A year of Care for your parts

*spare parts

Reference: GLO_EXC_Spare2024. Offer ends November 30th, 2024

A well-functioning power plant relies not only on cutting-edge technology but also on timely maintenance and dependable spare parts.

When operations are the focus, missing the right component can lead to costly disruptions or even an unplanned halt, resulting in substantial financial losses.

Equally crucial is timely technical support: the ability to connect swiftly with a certified expert reduces the chances of encountering critical situations, all while instilling confidence in having a reliable partner by your side.

ABB original spare parts

Original spare parts and components with guaranteed functionality are the key element of reducing the Mean Time between Failures (MTBF). Spare parts availability can significantly reduce the downtime associated with excitation maintenance, forced outages, as well as electrical and mechanical failures. As a minimum for operational reliability, it is essential to have critical spare parts and components readily available.

ABB Care for Excitation

ABB Care for Excitation is a service agreement providing structured support to complement onsite maintenance personnel, simplifying service delivery to control costs, offering operational improvement, all while extending system life cycle and enhancing functionality for your excitation systems.

Care for Spares 2024 Promotion

Taste the peace of mind by stocking up on Spares Parts and benefit from certified technical support through ABB Care for Excitation program

Achieving uninterrupted operations by benefiting from our Care for Spares offer is now more convenient.

From August through the end of November, and with a purchase of 50 kUSD of ABB original excitation spare parts, you will enter the ABB Care for Excitation Program for one year, gaining access to ABB certified experts for technical support for your UNITROL®, MEGATROL®, and SYNCHROTECT® systems.

This offer is your occasion to

- Prepare for a smooth 2025
- Taste the peace of mind of relying on a knowledgeable partner whenever needed
- Allocate your maintenance thoughtfully and in safety

Terms and conditions

- The offer is effective from August 14th through November 30th 2024
