

## Quick Selection Guide 2024

### Universal Enclosures and Thermal Management

Sustainable, Reliable and Customizable Solutions for Electrical and Control Panels

[se.com/enclosures](http://se.com/enclosures)

Life Is On

**Schneider**  
*Electric*

# PanelSeT Enclosures - Standard Applications

Previously Spacial and Thalassa ranges

	Floor-standing	Wall-mounted	Box
<b>Steel</b> Indoor industrial environments	SFN - Decarbonized Steel Modular SM - Monobloc	S3D CRN	SDB - Junction Box SBM - Industrial Box
<b>Stainless-Steel</b> Hygiene & corrosion-resistance	SFX - Modular SMX - Monobloc	S3X - Wall-Mounted	SBX - Box
<b>Insulating Material</b> Outdoor infrastructure & industry	PLA - GRP (Glass-Reinforced Polyester)	PLM - GRP	PLS - GRP TBS - Recycled ABS TBP - Polycarbonate

# PanelSeT Enclosures - Specific Applications

Previously Spacial and Thalassa ranges

	Floor-standing	Wall-mounted
<b>Electrical Distribution</b>	PrismaSet HD & 6300 Power Distribution switchboards up to 6300 A	S3DM - For Modular Switchgear S3DB - For Terminal Blocks
<b>HMI</b>	SFN PC - Suitable Control PC Rack SD - Control Desk	S3CM - Control Enclosure with Suspension System
<b>Network &amp; Server</b> 19" Racks	SFN IT - Procured in Kit	Wall-mounted Racks Actassi OPB & KDB For commercial building
<b>Severe Outdoors</b>	SFN HD PHD - GRP	S3HD PHD - GRP
<b>Seismic</b>	SFN 6G/3G	S3D 6G
<b>Explosive Atmosphere</b>		S3DEX - ATEX Certified
<b>EMC</b> Electro Magnetic Compatible	SFN HF	S3HF
<b>Motor Control Center</b>	SFN MCC - Compartmentalized Enclosure	

# ClimaSys - Thermal Management

<b>Cooling</b>	Natural Airing	Smart Ventilation System	Forced Ventilation	Air-to-Water Exchangers	Air-to-Air Exchangers	Cooling Units
<b>Heating</b>	Heating Resistors	Aluminum PTC Heater		Ultra Thin Resistance Heater		
<b>Controlling</b>	Smart Thermal Controllers			Thermal Controllers		
				ProClima Web Designing the suitable thermal solution for your control panels. Fully integrated into SEE Electrical from ETAP		

## Accessories & Spare parts

<b>Installation</b> Enclosures composition and installation	Canopy and Roofs	Panels - Side, Partition, Coupling	Floor Accessories	Fixing Accessories	Lifting
<b>Cable Management</b> Outside and inside the enclosure		Cable Entries		Cable Holding	
<b>Mounting</b> For components assembly	Assembly - Mounting Plates, Cross Rails, Uprights, Chassis...	Electrical Distribution Modular Chassis Busbar...	Door - Door Switch, Inner doors Hinge and Closing...	Maintenance Paint, Lighting	
<b>Spare Part</b>	Cable Gland Plate	Doors - Doors + Accessories	Fixing Devices	Roof Accessories	
Online Product Selector Find accessories that suit your enclosure					

## PanelSeT Customization Services

<b>Customization Services</b>		Machining Drilling, Milling, Deburring	Painting Finishing	Accessories Fitting	Expert Support for Advanced Projects
<b>Custom Enclosure Configurator</b> Online customization, price quote and delivery lead time					

# What's New?

Make sustainable

# IMPACT

with PanelSeT enclosures

New name, added value:  
**Spacial and Thalassa**  
 are becoming PanelSeT

Unveiling a unified brand identity  
 for all Schneider Electric steel,  
 stainless steel and insulating  
 universal enclosures.

The PanelSeT name carries  
 our commitment to a more  
 sustainable future.

## PanelSeT SFN

**The first decarbonized-steel floor-standing enclosure**

- **Reduced carbon footprint:** manufactured with 50% steel produced from recycled materials and renewable energy.
- **Increased robustness:** new patented frame and corner system design withstanding up to 1.5 tonnes of static load.
- **Unparalleled flexibility** in panel-building operations, stock and flow management Available in kit, assembled or customized.
- **Easy retrofit and improved** operational efficiency with new functionalities reducing time throughout the entire process.

Make the most of the benefits of PanelSeT SFN for your standard industrial applications as well as for more specific and demanding environments: electrical distribution, severe outdoors, network & server applications, seismic & nuclear...

**Up to 34%**  
 $\text{CO}_2$  savings vs the previous version

## ClimaSys Connected Cooling Units

**Designed to give industrial manufacturers peace of mind**

- **Natively connected product** with easy communication for remote access to operating status and setting data.
- **Sustainable product design and packaging**, offering a suitable Energy Efficiency Ratio and weight-size combination in the market.
- **Customizable and easy-to-mount solution**, with small and light ranges to save space.
- **Efficient selection process** thanks to ProClima thermal configuration software, now fully integrated into SEE Electrical Expert.

**EcoStruxure Ready**

PanelSeT SFN and  
ClimaSys CU

> [Watch the video](#)

## PanelSeT TBS Industrial Boxes

> Available from Sept.2024

**Moving towards recycled materials**

- **Reduced environmental impact:** now manufactured with 45% recycled content ABS.
- **No compromise on protection:** keeping the same mechanical characteristics, visual aspect and water/dust sealing to help protect your equipments.

**Smart box design:**

- 3 methods to fix the box to its support.
- Reinforced edges of the cover to help ensure its robustness and suitable support during customization operations.
- 38 options available including multiple dimensions with transparent, plain, low and high covers.
- IEC 62208 certified by TÜV.

**Made from**  
45% recycled ABS

# How to Define an Enclosure Solution ?

## Invariables

Switchgear and Contolgear are the cornerstone of all electrical systems in every segment, from industry to infrastructure, building, energy, and transport.

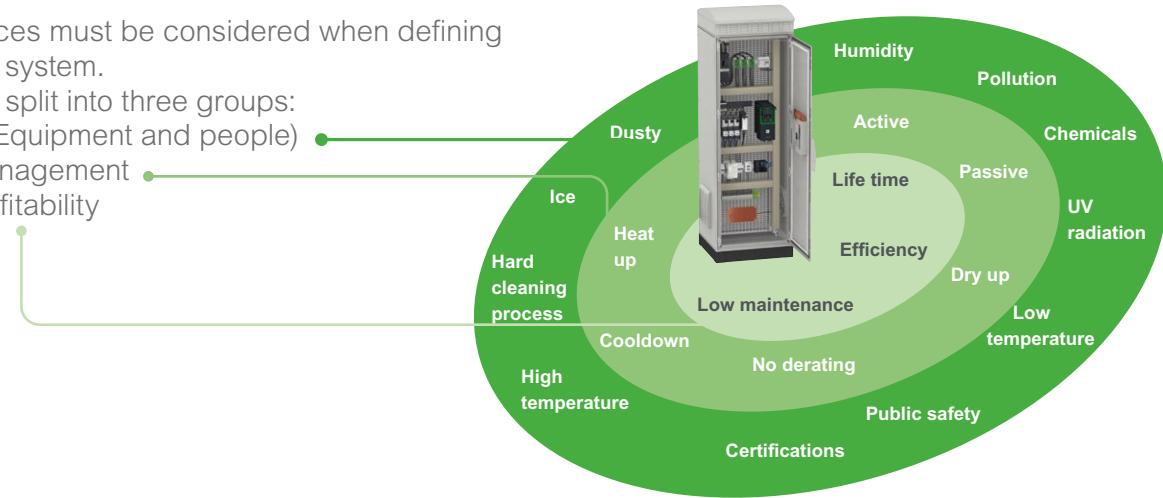

Selecting the correct enclosure and thermal management is crucial in helping guarantee the target performance. This also safeguards the equipment installed inside thereby helping ensure continuity of service.

## Correctly Selecting an Enclosure and Thermal Solution

Many influences must be considered when defining an enclosure system.

They may be split into three groups:

- Protection (Equipment and people)
- Thermal management
- Solution profitability

## Protection

Enclosures help protect the equipment installed inside against the external environment, and help protect people against accidental contact with the electrical equipment it contains.

- Protection against the environment
- This concept includes the following: Rain / Snow / Ice / Humidity / Pollution / Chemicals / UV Radiation / Low temperatures High temperatures / Cleaning process / Dust / Salt / Sand storms / Wind / Chemicals / Fauna / Flora / Vandalism / Burglary / ...
- Helping protect people from electrical accidents

This concept includes the following:

- Public areas / Non segregated private areas / Segregated private areas / Vandalism / Burglary

# How to Define an Enclosure Solution ?

## The Environment and the Enclosure

The table below is only indicative and not binding. It shows, in a general concept, the optimized performance of the universal enclosures ranges according to the environmental conditions, taking into account technical and commercial criteria:

- ███ Highly recommended
- ██ Recommended
- - Not recommended

Environment	Enclosure material							
	Steel	Steel Heavy Duty	304L stainless steel	316L stainless steel	Stainless steel Paint	Polyester	Polyester Heavy Duty	
Indoor clean environment <sup>(1)</sup>	███	██	██	██	██	██	██	
Hard cleaning process <sup>(2)</sup>	-	-	███	███	-	-	-	
Outdoor (no public access)	-	███	██	██	██	███	███	
Outdoor (public access)	-	██	██	██	██	██	██	
Harsh chemicals	-	██	███	███	███	███	███	
Solar radiation	-	███	-	██ (4)	██ (4)	███	███	
Sand storm	-	-	███	███	-	██	██	
Temperature > 40°C <sup>(3)</sup>	███	███	███	███	███	███	███	
Temperature < 5°C <sup>(3)</sup>	███	███	███	███	███	███	███	
Salty environment	-	-	-	███	███	███	███	
Sea water splashes	-	-	-	███	███	███	███	
Humidity > 70% <sup>(3)</sup>	-	███	███	███	███	███	███	
Impact	███	███	███	███	███	███	███	
Vandalism	-	███	██	██	██	██	██	
Burglary	-	███	██	██	██	██	██	
Heavy pollution	•	███	███	███	███	███	███	
Vibration (Marine application)	███	-	███	███	███	███	-	
Seismic	███	-	-	-	-	-	-	
Electro Magnetic Interference	███	-	-	-	-	-	-	

(1) Not considering F&B process

(2) e.g. F&B process

(3) Always using ClimaSys solutions

(4) Marine solar plants

## Thermal Management

Thermal management system must help guarantee control of the temperature and humidity inside the enclosure.

The correct solution must be based on a robust process starting with the environment diagnostic, then calculating the parameters and defining the most suited architecture (Enclosures + Equipment installed + Thermal solution).

ClimaSys is the hardware solution following an audit performed with dataloggers and ProClima thermal calculation software.

# Industry and Infrastructure Offer

## A material for every environment

### Steel

#### Robust solution for industrial environments

The industrial environment in mechanical plants is especially demanding as regards the protection of electric and electronic components against dust, oil splashes and impacts.

This environment therefore requires a range that is suited to the applications and easy to implement.

- **Universal range**, for industry
- **Functional enclosure**, for the electrical distribution
- **Motor Control Centres** - fixed MCC
- 19" racks for **Network and Server cabinets**
- **Heavy Duty range**, for outdoor applications in private locations
- **Seismic and nuclear enclosure**
- **E.M.C. range**, against electromagnetic disturbances
- **Range of ATEX enclosures**, for potentially explosive atmospheres
- **Human-machine interface enclosures range**
- **Customized solutions**, for specific applications.

### Stainless-Steel

#### Hygiene and corrosion-resistance

Food and beverage, pharmaceutical, petrochemical and infrastructure industries are particularly demanding in terms of hygiene and resistance to corrosion.

With two grades of stainless steel:

- **304L stainless steel**: resistance to corrosion and cleanability (often used in food production environments).
- **316L stainless steel, also known as "marine stainless steel"**: very high resistance to corrosion (saline or chlorinated environments).

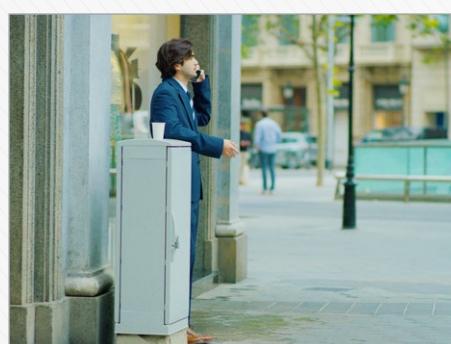

### Insulating Polyester and Plastic Materials

#### Outdoor and harsh environment

Outdoor infrastructures and electrical installations are exposed to direct sunlight, rain, saline mist, extreme temperatures, oil splashes, chemical and corrosive agents, and are in contact with the public.

- **Universal range, for industry and infrastructures**
- **Heavy Duty range**, for harsh outdoor applications.

# Quick Selection Guide 2024

## Industry and Infrastructure Offer

A material for every environment

### PanelSeT - Steel

From small boxes to large suitable floor-standing enclosures, PanelSeT steel ranges offer a fit for indoor clean industry and extensive options and easy-to-use accessories to help saving time.

### PrismaSeT for Industry

Panel building system for power distribution switchboard dedicated for harsh environments, distributing up to 4000 A (PrismaSeT HD) or up to 6300 A (PrismaSeT 6300).

### Actassi

Wall-mounting enclosures for IT applications (voice, data and image), hosting switches and servers in 19-inch racks, for commercial buildings and micro data centers.

### PanelSeT - Stainless-Steel

Our stainless-steel boxes, wall-mounting or floor-standing enclosures ranges represent the optimal solution where cleanliness is required, or for highly corrosive environments.

### Thalassa and PanelSeT Plastic

Thalassa insulated enclosures, made from ABS, polycarbonate and glassfiber-reinforced polyester, are inherently lightweight, corrosion-proof, resistant to harsh conditions and suitable for outdoor use.

### ClimaSys Thermal Management

Maintaining the right temperature inside your enclosure is vital for maximising the lifetime of your installed devices.

Our ClimaSys range offers you the right solution: airing, connected cooling or heating, including control units for temperature, humidity and many other parameters.

(1) The smart fan must be connected to the Filterstat controller that transmits the information and alarms.

(2) NSYCV\*\*\*DG fan supply includes: fan rpm sensor and smart filter with dust sensor.

(3) The supply of the NSYCAG\*\*\*DG smart grids includes: 1 smart filter G2 and dust sensor.

\* Plate with reversible dimensions; it can be installed in enclosures with inverted dimensions. Example: Plate ref. NSYMM64 can be used for the following enclosures: H 600 x W 400 mm or H 400 x W 600 mm. For plain mounting plates: In wall-mounting enclosures with widths of 1000 and 1200 mm, it is possible to install 2 mounting plates at different depths using an additional central step slide NSYSRSDCR.

## Selection and Configuration online tools

**Quickly select the right product, its components and accessories, or configure your enclosure solutions to suit your specific needs with our easy-to-use and free digital tools.**

### Web Catalogue

Access our full catalogue of Universal Enclosures and Thermal Management ranges directly from [www.se.com](http://www.se.com) website

- Library of product data sheets, technical documentations, catalogues and brochures
- Product Certificates
- 2D and 3D drawings
- FAQ, technical and Commercial Support

### Interactive Online Catalogue

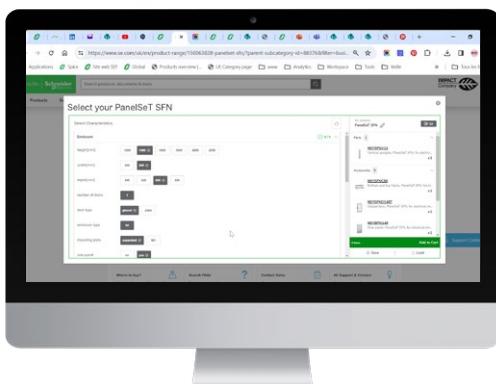

6

All the universal enclosures offers in a single document, with functionalities adapted to online use: Easy browsing features, Bookmarks, PDF export, Links to additional technical informations

### Product Selector

Save time by finding the exact product references of a selected range and its compatible components and accessories.

No need to log in, enjoy easy and error-free compatibility selection in just a few clicks.

## ProClima Web

Design the optimal thermal management solution for your control panels and keep up the health of electric and electronic devices inside your enclosures.

ProClima web tool features:

- 2 advanced algorithms for indoor and outdoor calculations
- Thermal databases with >10.000 weathering outdoor stations
- Mechanical compatibility between thermal solutions and enclosure
- Enclosure drawings to preview panel design
- Fully integrated into SEE Electrical from ETAP

## Custom Enclosure Configurator

Custom Enclosure Configurator allows to adjust enclosures to your specifications in a couple of minutes, instantly returning price quotation and delivery lead times.

It's a convenient, simple-to-use tool that gives you a wide variety of options to choose from, from different cutout shapes to paint colors and accessory fittings.

**Configurator  
Tool**

\* Available in France, Spain, Germany, Netherland and UK in 2023.

# PanelSeT and Thalassa Enclosure Customization Services

## The Customized Solutions

### Enclosure preparation takes precious time away from actual panel building

Preparing your Enclosure can take a significant amount of time and manual labor. Not only that, achieving a high-quality final result can be challenging.

This work can make you lose time on tasks such as:

- Drilling cut-outs for push-buttons, light indicators and cable entries
- Adding device fitting plates and cable glands
- Milling
- Deburring
- Painting

That's where Schneider Electric's PanelSeT and Thalassa enclosure customization services fit in. We can insource the low-value customization work and get it done quickly for you. That way, your enclosures are ready for wiring when they arrive, saving you time and reducing costs, whilst also improving the quality of your panels.

### To define your basic customization projects, choose the online configurator

#### Specify settings and get a quote in a single tool, then email your order in

For basic customization work (see next page for advanced customization), the Custom Enclosure Configurator allows you to adjust the enclosure to your specifications in a couple of minutes.

And it provides you with a price quote and delivery lead time.

It's a convenient, simple-to-use tool that gives you a wide variety of options to choose from, from different cut-out shapes to paint colors and accessory fittings.

### To define complex customization projects, contact our experts

#### For complex projects requiring advanced customization, a dedicated team of Schneider Electric experts will guide you through the process

Here's an outline of our advanced customization process:

- Provide your specifications
- Get a feasibility study and quotation
- Confirm and place your order
- Manufacturing starts
- A quality assessment is performed
- Your product is delivered

For more  
information,  
consult the  
customization  
guide

# PanelSeT and Thalassa Enclosure Customization Services

**Time Savings**  
Delivered with cut-outs and painting: no waste of time

**Logistics**

- Flexible management of your logistics option (scheduled delivery service for on-going orders)
- Special packaging

**Simplified Installation**  
Enclosures delivered with cut-outs: no special tools required

**Ergonomic Design**  
Customized project dedicated to your personal requirements

**Increased Life-Time**

- Cut-outs made before panting ensure corrosion protection and reliable sealing
- Painting service for better protection

**Improved Quality**

- No burrs on edges of cut-outs
- Help guarantee manufacturing tolerances

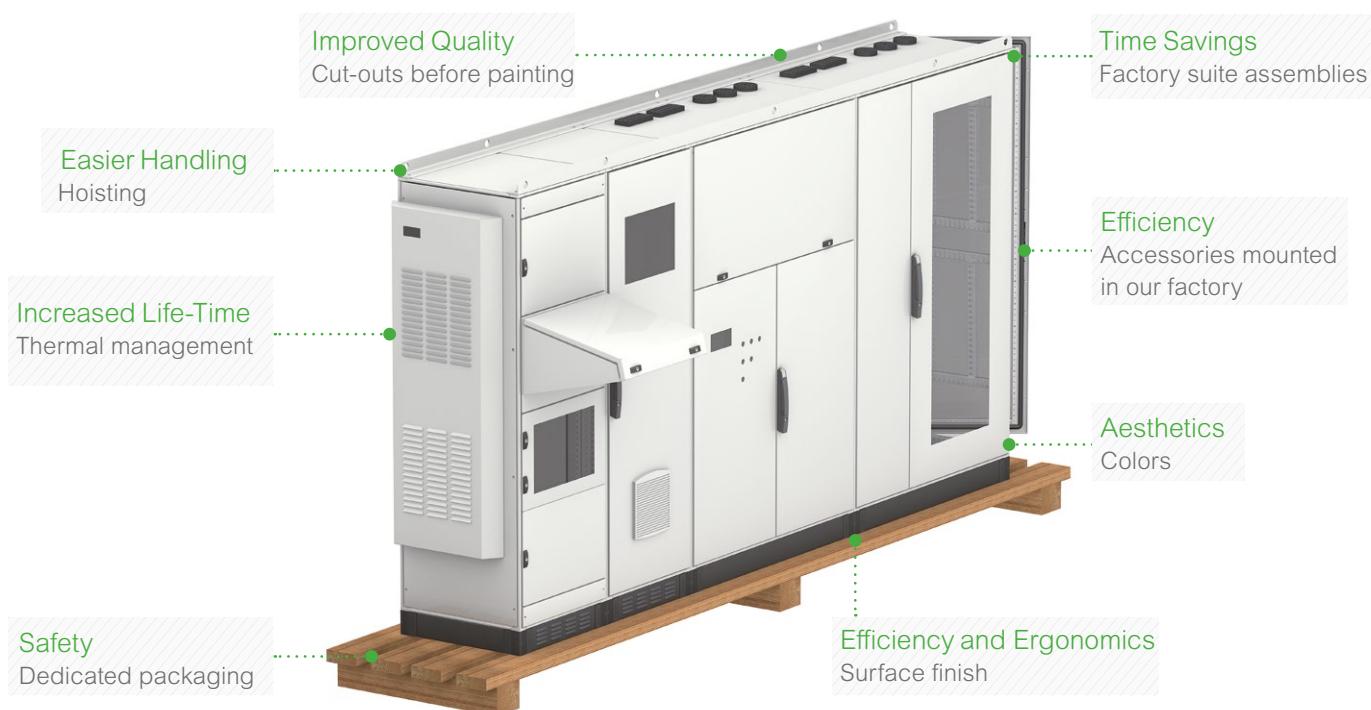

**Aesthetics**

- Large choice of colors
- No scratches in external surfaces

**Higher Performance**

- Adapted thermal management
- Higher-grade stainless-steel

**Let your Schneider Electric contact be your guide:**

- Get your enclosures prepared by powerful industrial resources
- Benefit from execution compliant with Schneider Electric quality standards
- Obtain Minimum lead time from specification to delivery

**Contact your Schneider Electric sales representative**

The Green Premium program stands for our commitment to deliver customer-valued sustainable performance. It has been upgraded with recognized environmental claims and extended to cover all offers including products, services and solutions.

CO<sub>2</sub> and P&L impact through... resource performance

Green Premium brings improved resource efficiency throughout an asset's lifecycle. This includes efficient use of energy and natural resources, along with the minimization of CO<sub>2</sub> emissions.

Cost of ownership optimization through... circular performance

We're helping our customers optimize the total cost of ownership of their assets. To do this, we provide IoT-enabled solutions, as well as upgrade, repair, retrofit, and remanufacture services.

Peace of mind through... health performance

Green Premium products are RoHS and REACH compliant. We're going beyond regulatory compliance with step-by-step substitution of certain materials and substances from our products.

Improved sales through... differentiation

Green Premium delivers strong value propositions through third-party labels and services. By collaborating with third-party organizations we can support our customers in meeting their sustainability goals such as green-building certifications.
