E-Z Clip Aluminum Lifesaver Fitting

Product Details

Hose crimping can be as easy as a SNAP!

The Aluminum Lifesaver braze fitting is designed to re-work failed OEM aluminum air conditioning tubing and hose assemblies in sizes 10mm to 18mm (metric tubing only, -6 to -12). This repair system allows the installer to reuse unique OEM terminal connections, while replacing the failed OEM hose and hose nipple with the E-Z Clip System.

NOTE: The E-Z Clip system can only be used with Eaton's Weatherhead® GH134W hose.

Features

- Ability to reuse unique OEM terminal connections
- Simple "pliers-type" tool for installation
- Superior performance equal to an OEM factory crimp hose assembly
- Braze-on type aluminum nipple

Applications

- Transportation
- Refrigeration
- Air Conditioning

Benefits

- Minimizes downtime and costly repairs associated with the purchase of new A/C assemblies
- Error free, hose-to-fitting connections are made offering the customer a virtually leak-free assembly, with no power tools required
- Works with R12, R134a and other EPA "Snap" approved refrigerants

E-Z to use

Each kit contains the correct components for replacement of a single hose assembly. Weatherhead GH134W hose must be ordered or purchased separately.

Determine tube O.D. for hose I.D. per chart below:
